Fire Department recognizes local businesses for support with Fire Safety House renovation

The Campbell River Fire Department held a recognition event July 20 to thank sponsors who supported renovations to the Fire Safety House.

“Over the past year, the Fire Department has completed a much-needed renovation on the Fire Safety House, which we use primarily to instruct Grade 3 students on hazards fire can pose at home,” explains Fire Chief Dean Spry. *“The renovation was completed mostly by firefighters, and we are glad to have the house back in service and ready to be used to its full potential.”*

Partnerships with local businesses made the renovation possible.

A plaque was presented to:

- Bob’s Flooring Canada
- Camcour Vinyl Sundeck and Rail
- CBS Prehung Doors Ltd.
- Grant Signs
- Home Hardware Building Supplies
- Nelson Roofing and Sheet Metal Ltd.
- Phoenix Enterprises Sandblasting
- Windsor Plywood

“We appreciated the opportunity to recognize these corporate citizens for their commitment to community fire safety, and we hope they’ll proudly display their recognition plaques,” the Fire Chief sums up.
