## GOOD JOB, CAMPBELL RIVER!

In August, we reduced average daily water use by 11%, compared to July.

Let's keep up our water conservation efforts into the Fall to help:

- 💧 replenish the water supply after a hot, dry summer
- 💧 protect the watershed into the future
- 💧 reduce overall environmental impact
- 💧 save on operating costs and reduce energy consumption

Staying water wise is important at all times of the year, even as temperatures start to cool down.
