

# ENVIRONMENTAL ADVISORY COMMITTEE

## MEMBER PROFILE: MARK VAN DOORN

***The City of Campbell River's Environmental Advisory Committee makes recommendations to Council on environmental matters concerning water, land and air. The committee is made up of community members with the unique skills and knowledge to provide Council with thoughtful and comprehensive advice.***

**Mark Van Doorn** works with Fisheries and Oceans Canada (DFO) as a freshwater habitat management biologist for the northern Vancouver Island area. Mark's career interests include watershed management, freshwater and marine ecosystems biology, fisheries research, salmon habitat protection, stream restoration and assessment of land use impacts on hydrology, water quality and fish habitat. Mark has experience with environmental impact assessments, environmental management plans, cumulative environmental effects assessments, regulatory approvals and construction monitoring of instream works for various projects including hydroelectric power, mining, forestry, transportation and municipal development projects throughout BC, Alberta, Northwest Territories and Nunavut. Mark looks forward to working with the City of Campbell River Environmental Advisory Committee to help protect the environment and help the City of Campbell River continue to be a great place.
