## HOLIDAY GARBAGE & RECYCLING COLLECTION INFORMATION

Residents whose curbside collection day falls on Christmas or New Year's day will receive their collection the following day (Thursday, Dec. 26 and Thursday, Jan. 2).

**Remember to  
reduce, reuse,  
and recycle  
this holiday  
season!**

**Green Giving Tip:** Create memories, not garbage! Make gift certificates for pet walking, car washes, household chores or a meal out or fun activity together!

## WINTER BURNING TIPS

*Winter wood smoke is one of the largest sources of fine particulate air pollution. Exposure has been linked to adverse health effects and decreased life expectancy. Following Burn it Smart principles for using wood as a fuel can help reduce neighbourhood air pollution - so we can all breathe a little easier.*

### TIP #5

#### **Don't burn wood waste:**

Never burn pressure-treated or painted wood, particleboard or plywood. Wood treated with varnishes and sealants, or sprayed with pesticides, contain toxic chemicals that are released into the air when burned.
