

WATERING RESTRICTIONS

Thank you for the positive response to the recent watering restrictions! We reduced water use to ensure that we have enough water for fire protection.

Normal irrigation times once again in place:

**Even-numbered address
water even-numbered days**

Midnight to 7 a.m.

7 p.m. to Midnight

**Odd-numbered address
water odd-numbered days**

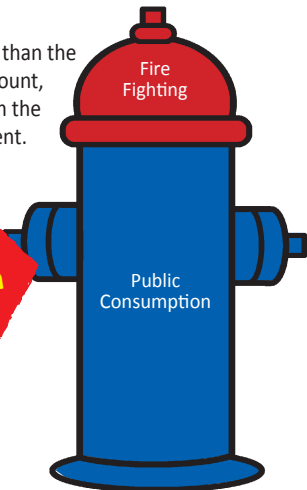

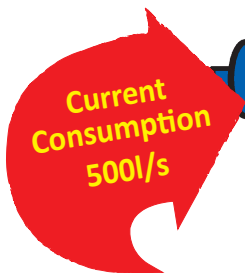

Midnight to 7 a.m.

7 p.m. to Midnight

Remember: lawns need only one inch of water per week. Lawns can only absorb a fixed amount of water, and any excess is wasted.

Check how much you're watering by placing an empty tuna can on your lawn. To learn more about water use and conservation, please visit City Services/Water at www.campbellriver.ca

When people use more than the public consumption amount, we end up taking it from the fire suppression allotment.
