

Q & A: 2019 Sewermain Rehabilitation Projects

The following questions and answers are intended to provide an overview of this project.

1. What is the project?

Work under this contract consists of the rehabilitation of approximately 1300 lineal meters of existing sanitary sewer mains through the use of Trenchless Technology called Cured In Place Pipe (CIPP) lining method. The work is to be delivered in segments as defined by manhole to manhole sections of relevant sewer main pipe and service connections.

2. Where are the project locations?

- Shoppers Row from 10th Ave to St. Ann's
- 16th Ave from Old Island Hwy to Cedar St
- Cedar St from 14th Ave to 16th Ave
- Dogwood St from 14th Ave to 16th Ave
- Dogwood St from 12th Ave to 13th Ave
- Fir St laneway from 1100 to Dogwood St
- McCarthy St from 2nd Ave to 251 McCarthy St

3. When is the construction work going to take place?

Investigative work will begin in Fall 2019 followed by the rehabilitation work in 2020.

4. What is the cost of the project?

The final cost of the project will be known once the RFP agreement has been signed.

5. How is the project being funded?

Budget has been approved in the 2019 Capital Plan and is funded by the sewer reserve.

6. Who will be involved in the project design and construction?

The work is being completed under a design-bid-built model. Design has been completed by the City's Capital Works and Sewer Departments. RFP 19-14 was publically up for bid and awarded to Insituform Technologies Ltd.

7. How will traffic be managed during construction?

Traffic management during construction will be the responsibility of the contractor doing the work. The contractor will have traffic control in place ensuring safe passage for vehicles and pedestrians around the work zone at all times.

8. What do I need to know?

Your sewer service connection to the sewer mainline will have to be **temporarily closed off** during repairs. We need your cooperation to avoid back up of the sewer water into your residence or business by preventing water from entering the sewer through any drains during the specified time period. As a result, it is imperative that you do not perform the following household activities.

Please: avoid washing clothes, dishes, do not take showers or baths, do not flush toilets or operate sump pumps connected to the sewer system. Please call 250-286-5756 if you have an concerns while the work is taking place.
