

## Toilet Rebate Program List of Qualifying Toilets – Updated September 2018

All of the toilets on this list are approved for a rebate from The City of Campbell River Toilet Rebate Program. The models on this list, adapted from MaP toilet testing, have been third party tested and independently verified for maximum flushing efficiency. The MaP scores represent the number of grams of solid waste that a toilet can remove completely from a single flush. A higher score represents a more efficient flush. MaP testing is an independent study program that is not affiliated with any manufacturer or group.

For more information on MaP testing, please visit [www.map-testing.com](http://www.map-testing.com).

To search for a toilet model on this list, press and hold Ctrl + F on your keyboard. Type in the toilet brand in the search bar, and you'll be redirected to the correct section. Once you have located the correct manufacturer, scroll through the list until you find the correct model. Alternatively, search the model number to be directed to the specific toilet model; however, be cautious when using the model number as the format may vary.

Brand Name	Model Name	Model Number	MaP Flush Performance Score (grams of waste removed in a single flush)	WaterSense Certified	Dual-Flush HET	Single-Flush HET
