### **Campbell River Airport's master plan endorsed by Council**

Council has adopted a master plan for the Campbell River Airport that supports economic development and tourism goals.

*"The master plan was developed by the Airport Authority Commission and City Council to make the most of the YBL advantage. It clarifies roles and responsibilities and also sets priorities and timelines," says Mayor Andy Adams. "Council recognizes and appreciates the experience of the Airport Authority Commission board members and the value their expertise brings to the plan's recommendations."*

*"The master plan is comprehensive and focuses on further developing economic and tourism opportunities," says Ross Sharp, chair of the Airport Authority Commission. "The board is keen to help make these opportunities a reality for our community."*

*"The master plan confirms the airport commission policies and governance structure are aligned with other advisory groups so the commission volunteers can continue to focus on the creative ideas for improvements," adds city manager Deborah Sargent. "City staff remain accessible to assist and facilitate for the Airport Authority Commission."*
