CALL FOR APPLICANTS TO THE ADVISORY PLANNING AND ENVIRONMENT COMMISSION

Help shape Campbell River's future by applying to serve on the Advisory Planning and Environment Commission (APEC).

Three appointments to APEC are now coming up for renewal. The City is looking for members of the public to apply, preferably with experience and expertise in the areas of:

- Economics and Finance
- Social issues
- Sustainability, conservation and environment

The APEC provides policy advice and recommendations to Council, on various issues related to long range planning (OCP), land use and development planning, permitting and development application processes, transportation planning and environmental and sustainability issues.

Terms for these positions are April 1, 2017 through to March 31, 2020.

Information and applications are at City Hall or at www.campbellriver.ca by going to Your City Hall - Advisory Committees and Commissions.

Apply today! Deadline is 4:30 p.m. Wednesday, March 15, 2017.

Please direct questions to Tracy Bate (250-286-5705) or tracy.bate@campbellriver.ca.

WATER DISTRIBUTION SYSTEM FLUSHING

Notice to the water users in the Campbellton area

The City will flush water mains from February 27 to March 10, 2017 from 8 a.m. to 4 p.m. in the Campbellton area.

This procedure is part of regular preventive maintenance to remove sediment that gradually deposits in the water pipes.

During the flushing process, temporary water interruptions will occur and water pressure could be reduced. City staff will work to minimize any inconvenience.

No change in water quality is anticipated, and this work presents no health risks.

Periods of discolouration may take place during flushing. Reducing water use during flushing hours will help minimize the amount of sediment and discolouration introduced into household systems.

In the event of cloudy or discoloured water, **run cold water from a bathtub tap for 15-20 minutes** or until the water clears.
