

Larwood/Erickson Sewer Upgrade News

June 14, 2019

Sewermain installation moves to Erickson Road

Here's what you need to know:

Construction

The final section of this 1550 lineal metre sanitary sewer pipe rehabilitation project is underway. Windley Contracting Ltd. will be arriving at the intersection of Erickson and Harrogate roads next week; spending a few days working in the intersection before commencing westbound on Erickson towards Fairmile Road.

Traffic Management

While working on Harrogate, single lane alternating traffic will be maintained through the construction zone. Once work moves onto Erickson there will be 2 way traffic maintained with brief periods of single lane alternating as required. We recommend using alternate routes whenever possible as there will be considerable disruption at times. Please obey traffic control personnel as they safely move vehicles and pedestrians through the construction zone.

Construction Schedule

The contractor will be working at the Erickson and Harrogate roads intersection week of June 17th for several days before continuing the pipe installation up Erickson working towards Fairmile Road. We anticipate that this project will be completed by the fall.

Thank you for your ongoing patience as the contractor works to complete this Capital Project.
