

## Q & A: 2020 Sewermain Rehabilitation Projects

The following questions and answers are intended to provide an overview of this project.

**1. What is the project?**

Work under this contract consists of the rehabilitation of approximately 2.4 km of existing sanitary sewer mains installing Cured In Place Pipe (CIPP) lining via trenchless technology. The work is being delivered in segments by working from manhole to manhole.

**2. Where are the project locations?**

- Shoppers Row from 10th Ave to St. Ann's Rd
- Elm St from 9th Ave to 10th Ave
- 16th Ave from Old Island Hwy to Cedar St
- Fir St laneway from 1100 to Dogwood St
- Cedar St from 14th Ave to 16th Ave
- Fir St from 9th Ave to 1100 Fir St
- Dogwood St from 11th Ave to 16th Ave
- McCarthy St from 2nd Ave to 251 McCarthy St
- 11th Ave from Cypress St to Cedar St
- Island Hwy from 9th Ave to 660 Island Hwy

**3. When is the construction work going to take place?**

Investigative work will be underway in the Spring, followed by the rehabilitation work in late Spring 2020.

**4. What is the cost of the project?**

The final cost of the project is \$1 million dollars.

**5. How is the project being funded?**

Budget has been approved in the 2020 Capital Plan and is funded by the sewer reserve.

**6. Who will be involved in the project design and construction?**

The work is being completed under a design-bid-built model. Design has been completed by the City's Capital Works and Sewer Departments. RFP 19-14 was approved by City Council and awarded to Insituform Technologies Ltd.

**7. How will traffic be managed during construction?**

Traffic management during construction will be the responsibility of the contractor doing the work. The contractor will have traffic control in place ensuring safe passage for vehicles and pedestrians around the work zone at all times.

**8. What do I need to know?**

Your sewer service connection to the sewer mainline will have to be **temporarily closed off** during repairs. We need your cooperation to avoid back up of the sewer water into your residence or business by preventing water from entering the sewer through any drains during the specified time period. As a result, it is imperative that you do not perform the following household activities.

**Please:** avoid washing clothes, dishes, do not take showers or baths, do not flush toilets or operate sump pumps connected to the sewer system. Please call Brittany at Insituform 1-780-982-4718 if you have any concerns while the work is taking place.
