PROVIDE FEEDBACK

A workbook will be available to collect your comments on the emerging options. Complete yours at the workshop, online, or submit by email to chloe.swabey@campbellriver.ca by **March 31, 2019.**

Public Workshop #2 introduces the conceptual options developed to adapt to sea level rise in coastal areas as we adapt to climate change. Our discussion will focus on understanding how options might be evaluated within the context of community values and priorities. We will also discuss challenges and opportunities of each option in terms of how we might prioritize investment.
